The 'Extended Access' to GP services across Slough is part of a national initiative to improve access to general practice.

East Berkshire Clinical Commissioning (CCG) has commissioned Bharani Medical Centre in Slough to provide 'extended access' evening and weekend appointments with local GPs, nurses, healthcare assistants and phlebotomists (blood tests). This is to provide greater appointment availability and flexibility for people.

These appointments are for routine general practice issues only and not for urgent care.

If urgent care is required, please call NHS 111 for advice.

Please note that 'extended access' appointments are in addition to some local GP practices offering in-house 'extended hours' appointments for their patients.

For more information, please contact your GP practice.
